

LIVE UNITED

Vision

The United Way of the Tri-Valley Area seeks solutions to meet immediate basic human needs, and create long lasting positive change.

Mission

The United Way of the Tri-Valley Area strives to unite people and resources to improve lives and build a strong and healthy community. It does this by identifying local needs and addressing their root causes, raising funds to meet those needs, and collaborating on local initiatives that create a measurable difference in Greater Franklin County.

Goals

When you join forces with United Way, you don't simply change lives, you change your community. The serious problems that devastate people's lives, and threaten the welfare of our entire community are many and varied. However, most arise from the same set of root causes. Root causes that we, at the United Way, in collaboration with our community partners are working hard to eliminate. By allocating to non-profit organizations that provide services in our local area, building the capacity of local organizations, and coordinating or participating in local initiatives, the United Way of the Tri-Valley Area invests in these community solutions:

- ◆ Responding to Emergencies and Meeting Basic Human Needs
- ◆ Strengthening Families and Children
- ◆ Increasing Independence and Financial Stability
- ◆ Improving Health

"Nobody likes to be cold. But, all around our county are homes in which the next fuel delivery must wait for a Social Security check to arrive; in those homes people have only the oven to keep them warm. People who have not experienced such deprivation may not understand why this happens. For most neighbors living on fixed incomes, there is barely enough money in any given month to cover the rent and utilities, food and medicine – never mind heat!

I sometimes get asked why people need help buying fuel in November, when "the price is so low and it isn't that cold yet?" If the oil tank has been empty since May and there hasn't even been any hot water, then waiting for the LIHEAP benefit to arrive in December is not going to work...especially if you are old, or disabled, or have a baby in the house. In order to call the oil company and ask for a delivery, the customer must be able to pay cash for 100 gallons. ECU HEAT meets those in need halfway by sharing in the cost of a 50-gallon delivery. For neighbors with limited resources, that 50-gallon delivery can be a real blessing...and a reminder that their community cares."

Thank YOU for Caring.
